

JPH EQUIPMENT BATCH

FOR ALL YOUR POT FILLING NEEDS

BATCH, Flat & Pot Filler by JPH is designed to take the backbreaking labour out of pot filling in the horticultural industry. It's a fast, reliable and repeatable way of filling almost any type of pot, container, hanging baskets and nursery flats with the correct mix of soil and fertilizer.

It designed to be fast, filling an average 8"/400mm pot in under 10 seconds, allowing you to do hundreds of uniform pots in an hour.
